Wireless Remote Control

FLÈCHE AIR ELECTRIC is equipped with a wireless controller that allows remote management of every electric radiator function. Because the controller is wireless, it has the advantage of being quick and easy to install and does not require any modifications within the home.

Technical specifications

- Wireless communication via radio signals transmitted to the receiver connected to the system
- Radiofrequency communication pursuant to European standards
- Operating modes: Manual, Automatic, Comfort, Economy, Holidays
- You can activate the manual functions, automatic and holiday
- Can be set comfort temperature of 5°C to 30°C
- Optional ITCS (Intelligent Temperature Control System)
- Open window detection function
